

" Call for applications for PhD grants " – Edition 2017

List of selected candidates (alphabetical order)

Decision of the Board of Trustees - November 14, 2017

Name of the Candidate	Host Laboratory	Project title	PhD Supervisor
Lucie AULUS	ECOBIOIP	Long-term evolution of anadromy in the introduced brown trout (<i>Salmo trutta</i>) and its impact on invasion dynamics in Kerguelen Island	Philippe Gaudin
Bracken CROSSLEY	PDP	Tax law and environmental or/and energy legislation	Jean Gourdou
Victor GARCIA MONTOTO	IPREM/ECP	Speciation Analysis in Biofuels	Brice Bouyssiere
Juncheng GUO	LFC-R	Nanoporous Graphene Membranes for Oil & Gas Applications: Molecular Simulations and Theoretical Modelling	Romain Vermorel
Pauline LATOUR	IPREM/EEM	Functional microbial diversity and biodegradation of hydrocarbons in a soil-aquatic continuum	Cristiana Cravo-Laureau
Bruno LECLÈRE	LFC-R	Crystallization-induced damage under confined reservoir conditions	David Grégoire
Gabriel SALLES	LMAP	On the modelling and statistical analysis of a gamma deteriorating system with imperfect maintenance	Sophie Mercier
Bruno Moreno DE FREITAS	CATT	Utility Business Models in the Presence of Distributed Energy Resources – DER: A Market Analysis Approach and Future Trends	Carole Haritchabalet
Pierre-Antoine PONCET	SIAME	Characterization of wave impact loading on structures at full scale: eld experiment, statistical analysis and 3D advanced numerical modelling	Stéphane Abadie
Pauline WISCHHUSEN	INRA - NuMeA	Parental selenium and antioxidant status in rainbow trout	B. Fauconneau

E2S Executive Director,

Gilles Pijaudier-Cabot
